

Air Dried Structural Oak

Our stock of Air Dried Oak Beams is in typically desirable sizes that have been seasoned over years for use in restoration and repair works. They are ready to be used as lintels, beams, posts, wall plates, rafters and joists.

Seasoned beams, silvered down and opening up cracks & splits along the length

Available in regular sizes from stock in the yard

Beams air dried to a low ambient moisture content suitable for restoration projects

Sample Sizes & Prices

If you're not sure what you need yet these examples should give you an idea of costs. Air dried structural timber is generally available in regular size sections which may not fit your requirements. It is possible to cut beams to size

Width mm	Depth mm	Length M	Volume M3	Weight kg	£ +VAT
